

TN50 – launched to chart Malaysia’s future post-2020

19TH JANUARY

TN50 LAUNCHED

*"In 30 years, the world will change radically. It is important that we look into the future today with this dialogue so we can **build our future together**..."*

WHAT IS TN50?

YAB Prime Minister’s **initiative** to shape Malaysia into nation of its citizens’ aspirations

Formulation of TN50 through extensive **bottom-up** engagement

TN50 to link people’s aspirations with Malaysia’s strengths & global megatrends for a **winning strategy**

ENGAGING ALL SEGMENTS

TN50 engagement began with **Malaysian youth**. To date, more than 1 million youths engaged with over 50,000 aspirations

TN50 **national discourse now extended** to cover all segments such as women, PwDs, Senior Citizens and Industry.

Industry engagement key towards formulating strategy for Malaysia’s transformation to the next level

WHY IS TN50 CRITICAL?

Provide **continuity & direction** for national development after year 2020

Ensure the nation is prepared to face **future global trends**

Proactively put in place strategy to meet people’s aspirations & realise Malaysia’s potential at global stage

Megatrends are rapidly changing the the world we live in.....

Urbanization

- 80% of the world's & Malaysia's population will be living in urban areas in 2030
- Cities will be densely populated & rise of more 10 million population cities

Ageing Society

- Population of over 60 years and above will exceed the youth
- Malaysia will become an "ageing nation" come 2035 (>15% of the population aged >60 tahun)

Digitalisation

- Rapid development of technology such as AI (Artificial Intelligence)
- Jobs of the future may lead to loss of employment if people are not equipped with the necessary skills

Resource Scarcity

- Overpopulation will lead to greater focus on energy, food and water security
- Sustainability increasingly essential focus for consumer demand, waste management

Geopolitical Shift

- Rapid growth of the emerging market creates a new world order by 2050
- Asian economies will form 50% of the world's GDP in 2050

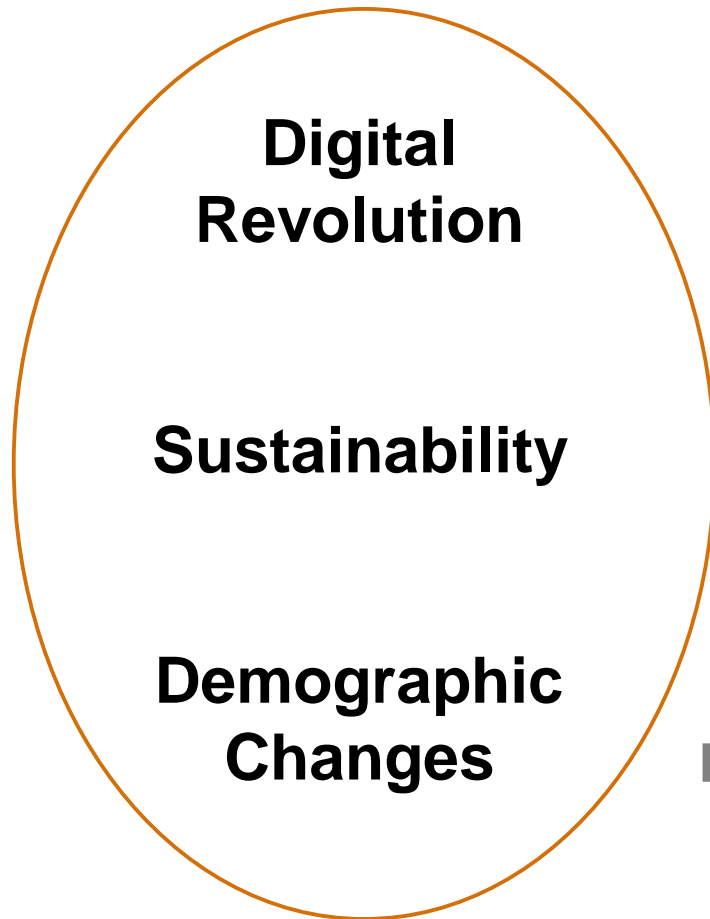

Societal Change

- Tensions between globalisation with tendencies towards nationalist protectionism
- Economic empowerment and diversity in the workforce

With the speed & scale of megatrends, is Malaysia's industry embracing the future ?

Main Global Disruptions:

Malaysia's key sectors:
